

MEMORANDUM OF UNDERSTANDING

WP[5]: [DISSEMINATION AND VALORISATION]

Prepared by: Conform S.c.a.r.l.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

2022-1-IT01-KA220-VET-000088750

1. Memorandum of Understanding (MoU)

1.1 Strategy and Vision

Based upon the successful collaboration in the Erasmus+ “S.T.A.R.T. Sustainable and Technological Approach to Rethink Tourism”, the signing organisations engage themselves to create a European network of an initial team of tech infusion coaches that will act as a driver and aggregator of a wide, open network for the sustainability of the methodological approach developed and shared by the transnational educators and trainers, also beyond the project life cycle.

The main purpose and objectives are to:

- Establish an open platform and forum for regular exchange and support of its partner organisations.
- Share and disseminate information, news and results regarding training initiatives, policy trends and innovative projects.
- Facilitate partnering and provide support for new collaborative projects, training and mobility actions.

The initial network is established under the umbrella of Conform S.c.a.r.l..

The aim is to grow the initiative to a larger group of organisations and an effective communication platform. The initial group of signing partners in the network commit to establish a coordination group that will animate the network, develop the action plan, mobilise and invite new partners to join, and facilitate and support the implementation of joint activities according to the agreed roles and objectives.

Participation in the network is a voluntary commitment without a formal adhesion. The steering group will elaborate the agreement for joint activities and inclusion of new partners and social stakeholders. The partnership will thus explore suitable ways to sustain the network, including formal agreements, as deemed appropriate for the constituent group of partners.

In this understanding, the signatories of the MoU are associated with the deployment of the stated objectives and intentions of the network.

1.2 Signatories of the MoU
